Re: Approved Special Education School Program Review Final Report
A - Devereux CARES (Center for Autism Resources and Education Services)
B - Devereux Day Program
C - Devereux Residential Program

Dear Ms. Goldsmith:

Enclosed is the Department of Elementary and Secondary Education ("Department") Approved Special Education School Program Review Final Report based upon the Program Review conducted for your approved special education school programs in February 2021.

This report includes detailed information describing the determinations of the Department about the implementation status of each requirement. Please note that all requirements were found to be fully implemented; therefore, your programs do not need to develop a Corrective Action Plan.

At this time, the Department requests that you send to us a separate statement signed by you and the Chairperson of your Board of Directors which describes the steps the programs are taking to make the Department's report available to staff, parent groups and the general public. Please go into the Web-based Monitoring System (WBMS) and upload your programs' statement that has been signed by you and the Chairperson of your Board of Directors into Additional Documents. You can do this by accessing:
> CPR/Program Review > Self-Assessment > Additional Documents.

The Approval Certificates enclosed with this correspondence shall remain in effect until August 31, 2023, and will be contingent upon continued compliance with all regulations contained within 603 CMR 28.00 "Special Education Regulations," 603 CMR 18.00 "Program And Safety Standards For Approved Public Or Private Day And Residential Special Education School Programs," and 603 CMR 46.00 "Prevention of Physical Restraint and Requirements If Used." The Department may change this approval status at any point during this three-year period if circumstances arise that warrant such a change.

Please be advised that the attached Department Approval Certificates must be conspicuously posted in a public place within the program as required by 603 CMR 28.09.

The Department will notify you of your programs' next regularly scheduled Mid-Cycle Review several months before it is to occur. At this time, we anticipate the next routine monitoring visit to occur sometime during the 2022-2023 school year, unless the Department determines that there is some reason to schedule this visit earlier.

In closing, we would like to extend our thanks to the administration and staff who shared their time and thoughts so generously during the preparation and virtual review process. Should you require any additional information, please do not hesitate to contact the Team Chairperson.

Sincerely,

Bridgette Mekkaoui, Chairperson
Office of Approved Special Education Schools

Nina M. Marchese, M.Ed., Director
Office of Approved Special Education Schools

c: David, Butler, Chair of the Board of Directors
Jeffrey C. Riley, Commissioner of Elementary and Secondary Education
Russell Johnston, Ph.D., Senior Associate Commissioner
Karen Brann, Supervisor, Office of Approved Special Education Schools

MASSACHUSETTS DEPARTMENT OF ELEMENTARY AND SECONDARY EDUCATION

APPROVED SPECIAL EDUCATION SCHOOL PROGRAM REVIEW REPORT

OVERVIEW OF REVIEW PROCEDURES

The Massachusetts Department of Elementary and Secondary Education (Department) is required under M.G.L. c. 71B, §10 to review special education programs in approved special education schools that serve publicly funded students under the provisions of Board of Elementary and Secondary Education Regulations 603 CMR 18.00, 28.09 and 46.00. Each year, the Department's Office of Approved Special Education Schools (OASES) conducts onsite visits to selected approved special education school programs to verify the implementation of these programs. The schools scheduled for program reviews for the 2019-2020 review cycle were notified in February 2019. However, due to the novel coronavirus, COVID-19, Massachusetts declared a state of emergency that ceased Department monitoring activities from March 16, 2020 to the end of the 2019-2020 school year. Schools who were scheduled to have their onsite visits between March 16, 2020 and the end of the 2019-2020 school year were notified in November 2020 that program review monitoring activities would begin virtually in January 2021. Schools scheduled to be reviewed in the 2020-2021 school year were scheduled to be monitored between February and July of 2021. All schools from the 2019-2020 and 2020-2021 school years were required to conduct a Self-Assessment using the Department's web-based monitoring system (WBMS).

The statewide six-year Approved Special Education School Program Review cycle together with the Department's Mid-cycle monitoring schedule is posted on the Department's web site at <http://www.doe.mass.edu/oases/ps-cpr/6yrcycle.html>.

Approved Special Education School Program Review Elements

Criteria: The Program Review criteria encompass key elements drawn from 603 CMR 18.00, 28.09, 46.00 and the approved special education school program's application for approval. They also include those required by the federal Office for Special Education Programs (OSEP) and revised requirements of the Individuals with Disabilities Education Act, 20 U.S.C. Section 1400 *et seq.* (IDEA-2004) as described in the Department's Special Education Advisories. Through the Desk Review the OASES chairperson examines the Self-Assessment submission and determines which criteria will be followed up on through onsite verification activities. The Self-Assessment and Desk Review are both described below.

Self-Assessment Phase: This is a requirement for all agencies being monitored. It is completed in the year prior to the onsite review and covers all of the monitoring criteria. The agency is responsible for completing a Self-Assessment for each individually approved program being reviewed, which consists of:

- Agency review of documentation for required elements including document uploads.
- Agency review of a sample of student records selected.
- Agency review of a sample of staff records selected.

Upon completion of these portions of the Self-Assessment, it is submitted to the Department for review.

Desk Review Phase: The OASES chairperson assigned to each agency reviews the responses by the approved special education school regarding the critical elements for appropriate policies, procedures, and practices, as well as actual documents and data submissions in each criterion. The student record review data, staff record review data, and explanatory comments are also examined. The outcome of this review, along with 3-year trend data from the Problem Resolution System, restraint reports, restraint injuries, serious incidents and notification or prior approval from the Department through a Form 1 to the Department is used to determine the scope and nature of the Department’s onsite activities.

Onsite Verification Phase (conducted virtually during the COVID-19 state of emergency):

This includes activities selected from the following:

- Interviews of administrative, instructional, and other staff consistent with those criteria selected for verification.
- Interviews of parent representatives and other telephone interviews as requested by other parents or members of the general public.
- Review of student records and staff records: The Department selects a sample of student and staff records from those the agency reviewed as part of its self-assessment to verify the accuracy of the data. The Department also conducts an independent review of a sample of student and staff records that reflect activities conducted since the beginning of the school year. The DESE monitoring team will conduct this review using standard Department procedures, to determine whether procedural and programmatic requirements have been implemented.
- Observation of classrooms and other facilities: The team observes a sample of classrooms and other school facilities used in the delivery of programs and services to determine general levels of compliance with program requirements.

Team: Depending upon the scope of follow-up activities that have been identified based on the Department’s Desk Review of the agency’s Self-Assessment, a two to three member Department team will conduct a two to five day virtual Program Review.

Draft Report of Comments: A Draft Report of Comments is based on a review of the written documentation regarding the operation of the school's programs and the information gathered from the Onsite Verification Phase (conducted virtually during the COVID-19 state of emergency). A Draft Report of Comments is issued via the WBMS. Agencies may respond to the factual accuracy of the report within 10 business days.

Final Report: A Final Report is then issued via the WBMS and in hard copy. The Final Report includes findings organized under 16 specified compliance areas listed in the table of contents. The findings explain the “ratings,” or determinations by the team about the implementation status of the compliance criteria reviewed within each of these areas. The ratings indicate those criteria that were found by the OASES monitoring team to be “Implemented,” “Implementation in Progress,” “Partially Implemented,” or “Not Implemented.”

Response:

The approved special education school program must propose to the Department corrective action to bring those areas into compliance with the required statute or regulation. In some instances the team may have found certain requirements to be fully “Implemented” but made a specific comment on the school program’s implementation methods that also may require response from the approved special education school program. **Under federal *Special Education State Performance Plan* requirements pursuant to IDEA-2004, public and approved special education school programs serving disabled students must**

demonstrate effective resolution of noncompliance identified by the Department as soon as possible but in no case later than one year from the issuance of the Department’s Final Program Review Report.

The approved special education school program is expected to incorporate the corrective action into any program improvement plans, including the school program’s professional and paraprofessional staff development plan.

The Department believes that the Approved Special Education School Program Review process is a positive experience and that the Final Report is a helpful planning document for the continued development and improvement of programs and services in each approved special education school program.

REPORT INTRODUCTION

A two-member team visited Devereux Advanced Behavioral Health during the week of February 22, 2021 to evaluate the implementation of selected compliance criteria under the Massachusetts Board of Elementary and Secondary Education Regulations 603 CMR 18.00 (Program and Safety Standards for Approved Public or Private Day and Residential Special Education School Programs), 603 CMR 28.09 (Approval of Public or Private Day and Residential Special Education School Programs), 603 CMR 46.00 (Prevention of Physical Restraint and Requirements If Used), M.G.L c. 71B, the federal Individuals with Disabilities Education Act, 20 U.S.C. Section 1400 *et seq*, as amended in 2004 (IDEA--2004), and civil rights provisions that are pertinent to Approved Special Education School Programs. The team appreciated the opportunity to interview staff, to observe classroom facilities, and to review the program efforts underway.

The Department is submitting the following Approved Special Education School Program Review Report containing findings made pursuant to this onsite visit. In preparing this report the team reviewed extensive documentation regarding the operation of the school programs, together with information gathered by means of the following Department program review methods:

- Interviews of four administrative staff;
- Interviews of two clinical staff;
- Interviews of eight teaching and educational support services staff; and
- Interviews of two childcare staff.
- Student record review: A sample of nine Massachusetts student records was selected by the Department. Student records were first examined by the school program's staff and then verified by the onsite team using standard Department student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements. An additional number of randomly selected student records were also reviewed by Department staff to ensure determinations regarding the implementation of procedural and programmatic requirements remain in effect.
- Staff record review: A sample of nine staff records was selected by the Department. Staff records were first examined by the school program's staff and then verified by the onsite team using standard Department staff record review procedures to make determinations regarding the implementation of procedural and programmatic requirements. An additional number of randomly selected staff records were also reviewed by Department staff to ensure determinations regarding the implementation of procedural and programmatic requirements remain in effect.
- Observation of classrooms and other facilities: A sample of three instructional classrooms and other facilities used in the delivery of programs and services was visited to determine general levels of compliance with program requirements.

The report includes findings organized under 16 specified compliance areas listed in the table of contents. The findings explain the "ratings," or determinations by the team about the implementation status of the compliance criteria reviewed within each of these areas. The ratings indicate those criteria that were found by the team to be "Implemented," "Implementation in Progress," "Partially Implemented," or "Not Implemented". The approved special education school program must propose to the Department corrective action to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have found certain requirements to be fully "Implemented" but made a specific comment on the school program's implementation methods that also may require response from the approved special education school program.

The approved special education school program is expected to incorporate any corrective action into any program improvement plans, including the school program's professional and paraprofessional staff development plans.

**DEFINITION OF TERMS
FOR THE RATING OF EACH COMPLIANCE CRITERION**

Implemented	The requirement or criterion is substantially met.
Implementation in Progress	This rating is used for criteria containing new or updated legal requirements and means that the agency has implemented any old requirements contained in the criterion and is training staff or beginning to implement the new requirements in such a way that the onsite team anticipates that the new requirements will be implemented by the end of the school year.
Partially Implemented	The requirement, in one or several important aspects, is not entirely met.
Not Implemented	The requirement is totally or substantially not met.
Not Applicable or Not Rated	The requirement does not apply to the approved special education school program.
