

health.moves.minds.[®]

Quick Start: Participant/ Guardian Online Sign-Up

1

Find your child's school and sign up: Go to healthmovesminds.org and click "Sign Up Today" button. You will be redirected to the health. moves. minds. fundraising platform; click on "Join a Team." Type in your school name. When you see your school, click your school's name and then select the option for "Fundraising Champion."

2

Fill out the registration form: The site will ask you to enter basic contact information, as well as t-shirt size; then set your fundraising goal. During the process, you will be prompted to create a username and password; be sure to choose something you'll remember and save it in a safe place! Additionally, you will be asked to read and accept a waiver on behalf of your child.

Please note: if you have more than one child that will be fundraising on behalf of a school Team, please be sure to register each child separately, using a different email address for each registration.

3

Now the fun begins! Your fundraising page is ready. You and your child can personalize the page, add photos, check your school's progress, and share your cause with family and friends through email and Facebook Fundraiser.
